LETTER OF TRANSMITTAL

RALEIGH, N. C.,
January 1, 1947

HONORABLE R. GREGG CHERRY, *Governor*.

DEAR SIR: In accordance with the provisions of section twenty-three, chapter two, of the acts of the General Assembly of 1923, I have the honor to submit herewith the sixteenth biennial report of the State Highway and Public Works Commission of North Carolina.

Respectfully,

A. H. GRAHAM, *Chairman*

FOREWORD

In the preparation of this report no attempt has been made to go into detail in regard to the operations of the State Highway and Public Works Commission during the period covered by the report. The essential data is presented in statistical form in the following pages as are the audits covering the financial operations of the Commission for the same period.

The Biennial Report of the Prison Department of the State Highway and Public Works Commission, usually contained in the report of the State Board of Charities and Public Welfare, is included in this report.

Roadway Projects Let to Contract From July 1, 1944 to July 1, 1946

SAM N. SMITH, *Auditor*

HON. GEO. ROSS POW

State Auditor

Raleigh, N. C.

SIR: Pursuant to your instructions, we have made an examination of the financial accounts and records of the NORTH CAROLINA STATE HIGHWAY AND PUBLIC WORKS COMMISSION, Raleigh, North Carolina, for the fiscal year ending June 30, 1945, and submit herewith our report.

Cash—\$48,895,826.05:

We reconciled the cash balance at June 30, 1945, with the records of the State Treasurer. We examined in detail checks for one month and had occasion to examine numerous cash entries recorded during other months. Our examination disclosed no irregularities.

Accounts Receivable—\$64,473.00:

The total accounts receivable consist of five items, as follows:

Cash advances to employees amounting to \$11,350.00, represent advances for travelling and emergency purposes. These advances are secured by a surety bond approved by the Commissioner of Insurance.

State Departments and sundry accounts amounting to \$41,217.23, represent charges for services rendered or sale of supplies made by the various units of the State Highway and Public Works Commission. From our examination it appeared that all of these receivables were for current charges and collectible.

Cement and material advances amounting to \$573.92, represent cement furnished contractors in the construction of highways. Advances are usually paid or deducted on current estimates, and it is the policy of the Commission not to pay the final estimate on any project until all advances have been deducted. We examined a representative number of contracts, projects and estimates and found that this policy had been adhered to.

Motor Vehicle Bureau—Imprest Fund in the amount of \$15,000.00, represents an advance to the Motor Vehicle Bureau for the purpose of making refunds and the clearing of worthless checks. This account was verified with the records of the Motor Vehicle Bureau.

The credit balance of \$3,668.15, included under the caption, as advance on group insurance, represents insurance premium payments collected from employees, which have not been paid out as premiums to insurance companies.

U. S. Public Roads Administration—\$7,409,587.70:

This balance represents the amount receivable from the U. S. Public Roads Administration under the program of Highway Construction. The total amount receivable consists of two items, as follows:

Balance due on Projects Let, amounting to \$1,362,826.80, represents the estimated amounts receivable from the Federal Government as their share of

the cost of construction projects for which the contracts have already been let. The liability for these contracts is reflected in the Encumbrances.

Balance due on Allocations amounting to \$6,046,760.90, represents the amount allotted to the State Highway and Public Works Commission under the Federal Aid Program. As contracts are let, the Federal Government's share of the estimated participating cost is transferred from this account to the account "Balance Due on Projects Let."

Inventories—\$1, 695, 839.11:

Physical inventories were taken at the various storage points by Highway Commission employees. The original inventory sheets were forwarded to Raleigh and examined by us. We made comprehensive tests of price extensions and footings, which disclosed only minor discrepancies, however, we did not examine the actual physical inventories.

Materials and supplies are priced at an average cost price for inventory purposes. As shown on Schedule 2 the value of the physical inventory at June 30, 1945, was \$105,611.43, in excess of the book value. This excess is primarily due to placing gasoline, oil and grease in the book inventory at cost and charging these items into operations at a price somewhat higher.

We noted that farm produce and small quantities of other supplies on hand at the various camps were not included in the inventory as shown on the balance sheet.

The reserve for inventories amounting to \$316,702.25 at June 30, 1945, represents the unused balance of a valuation reserve set up at June 30, 1931 against obsolete materials and supplies.

Encumbrances—\$8, 682, 772.75:

This balance represents the obligations of the Highway Fund as of June 30, 1945, on highway construction and betterment projects on which the contract has been let or on which the work has been started. The amount shown as compensation claims represents the balance due on a compensation claim which arose in connection with prison construction.

Complete details of the various highway encumbrance accounts are shown on Schedules 3-8, inclusive, and require no further explanation.

During the course of our examination, we had occasion to examine a number of contracts and payment of estimates on work completed. We found that all such payments were properly approved by the engineering division.

Reserves—\$2,566,702.25:

The item making up this total, with the exception of the reserve for equipment replacements amounting to \$2,250,000.00, have been discussed under the assets to which they apply. This reserve of \$2,250,000.00 for motor equipment replacements was set up due to the fact that normal replacements could not be made due to conditions created by the war. The amount placed in this reserve account for the year under review was \$500,000.00.

Surplus—\$46,816,250.86:

The surplus as shown on the balance sheet is divided into unappropriated surplus and appropriated surplus. The appropriated surplus is represented by the following

unexpended appropriations shown on Exhibit "C" under the heading "Construction State and County Highways."

Regular Federal Aid	\$ 7,349,788.00
Secondary Roads	1,238,210.00
Grade Crossing Eliminations	1,310,918.00
Forestry Funds	57,425.00
Works Progress Fund	12,529.00
Strategic Highway Network	133,309.00
Advanced Engineering	334,572.00
Totals	<u>\$10,436,751.00</u>

It is considered that the above part of the surplus is set aside for the specific purpose of being used on Federal Aid Projects.

Exhibit "B"—Estimated Revenue and Receipts:

This Exhibit reflects total revenue accruing to the Highway Fund for the fiscal year ending June 30, 1945.

We did not verify the revenue collected by the Department of Motor Vehicles and Revenue Department, which accrues to the Highway Fund for the purpose of this report. This revenue will be verified and reported in our audit of the Department of Motor Vehicles and Revenue Department.

The item of filing fees collected by the Utilities Commission amounting to \$3,773.00 was verified with the records of the Utilities Commission. The item "Sundry Revenue" amounting to \$2,223.70, consists of discounts on maintenance material stores purchased and the cancellation of old outstanding checks.

All the Revenue on this Exhibit is shown on a strictly cash basis.

The cost of constructing Defense Access Roads is paid entirely by Federal Funds, and is so allocated by the Federal Government as demand arises.

Exhibit "C"—Appropriations and Allotments:

This Exhibit shows the appropriations allotments and the unexpended balance of appropriations.

Exhibit "D"—Statement of Allotments and Liquidations:

This Exhibit reflects the encumbrance at July 1, 1943, the allotment credits, and the liquidation of encumbrances during the fiscal year under review, together with the encumbrance at June 30, 1945.

Exhibit "E"—Per Capita Cost of Prisoners:

The Per Capita Cost of Maintenance and Support of Prisoners is shown in detail on this Exhibit. The per capita, per day cost for the year under review was \$.9724 as compared with \$.9745 for the previous year.

The prison department is charged with all expenditures pertaining to the operation and is credited with receipts from the sale or transfer of farm and manufactured products, as well as per capita allowance of \$1.40 per day for prison labor. Upon this basis, for the year under review, the prison department's operations reflected a deficit of \$193,666.12, as compared with a deficit of \$412,008.25, in the previous year. This deficit was charged to State and County Maintenance.

Other Exhibits:

Attached hereto, as Exhibit "F", is a statement of the cumulative expenditures for construction of State Highways from March 4, 1921, through June 30, 1945.

Attached hereto, as Exhibit "G", is a statement of the cumulative expenditures for construction of County Highways from July 1, 1931, through June 30, 1945.

General:

Our examination consisted primarily of a verification of assets and liabilities of the Highway Fund at June 30, 1945, as shown on the attached balance sheet and a general review of operation for the year ending on that date. During the course of our examination, we had occasion to examine a number of original entries and other data supporting financial transactions, all of which appeared proper. We did not, however, examine every financial transaction recorded in the records during the year under review. We had occasion to refer to data in the files supporting numerous original entries and found that all such data had been properly filed and the files were in excellent order.

We wish to express our appreciation to the personnel of the Commission for the many courtesies extended us during the course of our examination.

Respectfully submitted,

BUREAU OF INSTITUTIONAL AND
DEPARTMENTAL AUDITING

By A. H. HOWELL.

Approved:

M. L. WIDENHOUSE, C. P. A.

HON. GEO. ROSS POU
State Auditor

Raleigh, N. C.

SIR: Pursuant to your instructions, we have made an examination of the financial accounts and records of the NORTH CAROLINA STATE HIGHWAY AND PUBLIC WORKS COMMISSION, Raleigh, North Carolina, for the fiscal year ending June 30, 1946 and submit herewith our report.

Cash—\$56,518,651.46:

We reconciled the cash balance at June 30, 1946 with the records of the State Treasurer. We examined in detail checks for one month and had occasion to examine numerous cash entries recorded during other months. Our examination disclosed no irregularities.

Accounts Receivable—\$37,883.01:

The total accounts receivable consist of five items as follows:

Cash advances to employees amounting to \$12,675.00 represent advances for travelling and emergency purposes. These advances are secured by a surety bond approved by the Commissioner of Insurance.

State Departments and sundry accounts amounting to \$28,121.33 represent charges for services rendered or sale of supplies made by the various units of the State Highway and Public Works Commission. From our examination it appeared that all of these receivables were for current charges and collectible. Cement and material advances amounting to \$31,989.93 represent cement furnished contractors in the construction of highways. Advances are usually paid or deducted on current estimates and it is the policy of the Commission not to pay the final estimate on any project until all advances have been deducted. We examined a representative number of contracts, projects and estimates and found that this policy had been adhered to.

Motor Vehicle Bureau—Imprest Fund in the amount of \$15,000.00, represents an advance to the Motor Vehicle Bureau for the purpose of making refunds and the clearing of worthless checks. This account was verified with the records of the Motor Vehicle Bureau.

The credit balance of \$49,903.25, included under the caption as advance on group insurance, represents insurance premium payments collected from employees, which have not been paid out as premiums to insurance companies.

U. S. Public Roads Administration—\$17,786,725.70:

This balance represents the amount receivable from the U. S. Public Roads Administration under the program of Highway Construction. The total amount receivable consist of two items, as follows:

Balance due on Projects Let amounting to \$5,645,844.10 represents the estimated amounts receivable from the Federal Government as their share of the cost of construction projects for which contracts have already been let. The liability for these contracts is reflected in the Encumbrances.

Balance due on Allocations amounting to \$12,140,881.60 represents the amount allotted to the State Highway and Public Works Commission under the Federal Aid Program. As contracts are let, the Federal Government's share of the estimated participating cost is transferred from this account to the account "Balance due on Projects Let".

Inventories—\$1,843,426.51:

Physical inventories were taken at the various storage points by Highway Commission Employees. The original inventory sheets were forwarded to Raleigh and examined by us. We made comprehensive tests of price extensions and footings; however, we did not examine the actual physical inventories.

Materials and supplies are priced at an average cost price for inventory purposes. As shown on schedule 2, the value of the physical inventory at June 30, 1946 was \$160,677.46 in excess of the book value. This excess is primarily due to placing gasoline, oil and grease in the book inventory at cost and charging these items into operations at a price somewhat higher.

The reserve for inventories amounting to \$316,702.25 at June 30, 1946, represents the unused valuation reserve set up at June 30, 1931 against obsolete materials and supplies.

Encumbrances—\$23,298,493.86:

This balance represents the obligations of the Highway Fund as of June 30, 1946 on highway construction and betterment projects on which the contract has been let or on which the work has been started. The amount shown as compensation claims represents the balance due on a compensation claim which arose in connection with prison construction.

Complete details of the various highway encumbrance accounts are shown on Schedules 3 through 8 and require no further explanation.

During the course of our examination, we had occasion to examine a number of contracts and payment of estimates on work completed. We found that all such payments were properly approved by the engineering division.

Reserves—\$2,066,702.25:

The items making up this total with the exception of the reserve for equipment replacements amounting to \$1,750,000.00 have been discussed under the assets to which they apply. This reserve of \$1,750,000.00 for motor equipment replacements was set up due to the fact that normal replacements could not be made due to conditions created by the war. During the year under review \$500,000.00 was transferred from Reserve for Equipment Replacements.

Surplus—\$50,821,490.57:

The surplus as shown on the balance sheet includes both Federal and State Funds. This amount represents a book surplus and should not be interpreted as "Cash Surplus".

Exhibit "B"—Estimated Revenue and Receipts:

This Exhibit reflects total revenue accruing to the Highway Fund for the fiscal year ending June 30, 1946.

We did not verify the revenue collected by the Department of Motor Vehicles and Revenue Department which accrues to the Highway Fund for the purpose of this report. This revenue will be verified and reported in our audit of the Department of Motor Vehicles and Revenue Department.

The item of filing fees collected by the Utilities Commission amounting to \$2,537.25 was verified with the records of the Utilities Commission. The item Sundry Revenue amounting to \$467.92 consists of discounts on maintenance material stores purchased and cancellation of old outstanding checks.

All the Revenue on this Exhibit is shown on a strictly cash basis except the Federal Aid Revenue. The Federal Aid Revenue represents the amount allocated by the

Federal Government during the year for their share of projects on which they are to participate. This revenue amounting to \$11,459,610.00 was verified by inspection of certificates direct from the U. S. Public Roads Administration.

Exhibit "C"—Appropriations and Allotments:

This Exhibit shows the appropriations, allotments and the unexpended balance of appropriations.

Exhibit "D"—Statement of Allotments and Liquidations:

This Exhibit reflects the encumbrances at July 1, 1945, the allotment credits and the liquidation of encumbrances during the fiscal year under review, together with the encumbrances at June 30, 1946.

Exhibit "E"—Per Capita Cost of Prisoners:

The Per Capita Cost of Maintenance and Support of Prisoners is shown in detail on this Exhibit. The per capita, per day cost for the year under review was \$1.2324 as compared with \$.9724 for the previous year.

The Prison Department was charged with all expenditures pertaining to the operation and was credited with receipts from the sale or transfer of farm and manufactured products as well as \$1.40 per day for the first six months of the year and \$2.00 per day for the last six months of the year for prison labor. Upon this basis, for the year under review, the Prison Department's operations reflected a deficit of \$282,975.27, as compared with a deficit of \$193,666.12 in the previous year. This deficit was charged to State and County Maintenance.

Other Exhibits:

Attached hereto, as Exhibit "F" is a statement of the cumulative expenditures for construction of State Highways from March 4, 1921 through June 30, 1946.

Attached hereto, as Exhibit "G", is a statement of the cumulative expenditures for construction of county highways from July 1, 1931 through June 30, 1946.

General:

Our examination consisted primarily of a verification of assets and liabilities of the Highway Fund at June 30, 1946 as shown on the attached balance sheet and a general review of operations for the fiscal year ending on that date. During the course of our examination, we had occasion to examine a number of original entries and other data supporting financial transactions, all of which appeared proper. We did not, however, examine every financial transaction recorded in the records during the year under review. We had occasion to refer to data in the files supporting original entries and found that all such data had been properly filed and the files were in excellent order.

We wish to express our appreciation to the personnel of the Commission for the many courtesies extended us during the course of our examination.

Respectfully submitted,

BUREAU OF INSTITUTIONAL AND
DEPARTMENTAL AUDITING

By A. H. HOWELL

Approved:

M. L. WIDENHOUSE, C. P. A.

LETTER OF TRANSMITTAL

To His Excellency, Governor R. GREGG CHERRY
Raleigh, North Carolina

Sir:

I have the honor to transmit herewith the biennial report of the prison department of the State Highway and Public Works Commission for the fiscal years ended 1944-45 and 1945-46.

This report covers statistical data with reference to prisoners, the financial statistics with reference to the operations of this department being included in the biennial report of the State Highway and Public Works Commission.

Respectfully submitted,

A. H. GRAHAM, *Chairman,*
State Highway and Public Works Commission

REPORT OF DIRECTOR OF PRISONS

Honorable A. H. GRAHAM, Chairman,
State Highway and Public Works Commission
Raleigh, North Carolina

Dear Sir:

I am submitting herewith the biennial report of the prison department for the State Highway and Public Works Commission for the fiscal years 1944-45, 1945-46, setting forth the statistical data and detailed information concerning the prison population.

Respectfully submitted,

CLYDE O. ROBINSON, *Director of Prisons*
